The "DRI-LINE" Keeps Hair Dry!

XD3/15.1

Everybody knows that *Kleinert's* caps are *smart* caps! But not everybody knows they have a special feature — the Dri-line — which makes them extra DRY!

It's a cleverly concealed band of stockinette inserted inside the edge of the cap at the hair line. Saves your wave and a lot of drying time.

Kleinert's caps are made in the same fashionable colors as Kleinert's suits — carefully planned to be becoming even when you're wearing the minimum of make-up.

There are smart Kleinert's accessories, too — sandals that stay on, beach bags that hold simply everything. When you start assembling your beach outfit, be sure you are shown the newest styles from Kleinert's.

Kleinert's
